## Legal To Monitor Cop Calls

Private citizens who monitor police radio calls are within their legal rights, so long as they do not use the information for personal gain or profit.

Jay McClasky, Jr., director of communications for the Lake County police radio station, says there have been at least two convictions in recent years involving tow truck operators who attempted to use police calls to increase business.

Speaking on the weekly radio series "This Week in Lake County," produced by the county information office and broadcast over five local stations each weekend, McClasky said the most frustrating aspect of private monitoring is the thwarting of police work by hoodlums. However, he pointed out that new devices which scramble calls are now on the market and may be the answer to undesired intercepts.

## County To Receive 20 Million

Ray Page, Illinois Superintendent of Public Instruction, announced that almost \$100,000,000 will be paid to Illinois schools this month.

This payment is based on the new \$620 foundation level, and covers a two month period of July and August. The monthly payments amount to \$48,630. 958.46.

Payments will be made each month over a twelve month period and are based on the average daily attendance submitted by school districts at the close of school last June. A. R. Evans, Assistant Superintendent of Public Instruction, in charge of finance and statistics, said that schools which qualify to submit supplementary claims will have state aims claims adjusted beginning in January.

A hearing on a permanent injunction is scheduled for Sept. 18. Laine's father is a retired Army sergeant. The family has lived in Lindenhurst the past four years.

The father, who is self-employed as an insurance investigator, has defended his son in his action, contending that his constitutional rights had been violated by not allowing him to attend school.

"I am behind my son," he said. Laine had been suspended Sept. 4 when he did not abide by the grooming code established for male students at Antioch High School.

The code, appearing in the Parent and Student Handbook, is:

1. Hair must be neat and well-groomed. Extreme or bizarre hair styles not acceptable.

2. Clean shaven.

It was reported that Laine's sideburns are longer than the re-

quirements laid down in the school grooming code.

Named in the court suit as defendants were Albert L. Dittman, superintendent; Warren Polley, Mrs. Bette Meyer, and William E. Petty.

The suit contends that Laine

was not allowed to attend school after December, 1968 without a hearing before the school board for not complying with the grooming code. The suits said that Laine was notified by letter of the school's action.

The suit charges the grooming code is invalid, unreasonable and violates the 1st and 14th amendments of the U. S. Constitution.

of most other states," said Howlett.

"In the 1967-68 fiscal year, our people paid less of their personal income dollar for the general expenditures of state and local government than in any other state in the union.

Howlett was the featured speaker at a dinner of Lake County Democrats in the George Diamond Country Club here. The dinner climaxed a Golf Day, sponsored by the party's county central committee.

"But we are about to give up our standing as the most thrifty of states. We are moving in among the big taxers and big spenders. We have a new state income tax and a good many increases in other taxes.

"The new national administration wants all the states to tax and spend.

"The national administration has proposed to Congress a new system for revenue sharing under which bonuses of federal income tax money would be given to the states and local governments which tax their own residents the most.

"Illinois, which has been a low-income state for many years, through both Democratic and Republican administrations, will not receive as big a share of this federal pie as the states which tax their own residents the most.

"Local interviewing will be part of a nationwide survey conducted annually for the U. S. Public Health Service. The questions will cover immunization against influenza, polio, measles, diphtheria, and other diseases.

The immunization survey will supplement the Bureau's monthly national survey of employment and unemployment for the Bureau of Labor Statistics of the U. S. Department of Labor which furnishes a basic measure of the Nation's economic health.

Information collected in Bureau surveys can be used only to determine statistical totals, and facts about each person and family are kept completely confidential by law.

By Cong. Robert McClory

The Welfare plan proposed by President Nixon is designed to return most welfare recipients to useful employment. The \$4 billion package announced by the President would place a floor under welfare payments to apply nationally—the Federal contribution for a family of 4 to be \$1600 per year.

The Nixon plan follows in part a pattern established more than 2 years ago by the U. S. Congress (and never implemented) to require welfare recipients to seek employment or, if unemployed, to receive job training. In order to encourage employment, a family of 4 would be entitled to receive welfare payment and supplementary income totalling almost \$4,000 annually before becoming disqualified for further relief.

The highly controversial and much criticized program, "Aid to Dependent Children" (ADC), would be dissolved with ADC cases being absorbed into the overall Federal welfare program. Under the existing ADC program (administered by the states), a family of 4 receives \$39.00 per month in Mississippi and as much as \$260 per month in New Jersey. This great disparity between the states has induced many welfare recipients to move from place to place in order to receive the maximum welfare benefits.

Some may describe the Federal program, with its minimum family benefits, as a guaranteed annual income. On the other hand the plan proposed by President Nixon should go a long way toward relieving hunger and malnutrition as well as other forms of poverty. Also, the President has proposed educational and job training programs intended to remove from the welfare rolls all but those who are unemployable because of physical or mental handicaps.

That part of the program which guarantees annual welfare payments will gain wide public support from the so-called "liberals". On the other hand, the educational, job training and other aspects designed to encourage individual employment, will appeal to the "conservatives."

What will disturb many is the overall price tag which may exceed \$4 billion during the first few years. But after that the cost should go down as the effects of the program are felt—and the welfare recipients gradually become self-supporting citizens.

On next week's program McClory will discuss specific instances of thieves monitoring calls, the future of police communications in the county, and a prediction about the Federal Communications Commission.

The younger's parents discovered the rare disease when the girl went to a dentist because of problems with impacted teeth.

A long stay in the hospital disclosed the disease had progressed to a point where no cure could be evolved.

## Get Out And Vote

The election of delegates to the Constitutional Convention is rapidly approaching.

On Tuesday, Sept. 23, the voters will troop to the polls in probably what will be the most important election in many years.

The only problem will be whether or not the six candidates in the 31st district, of which we are members can get the voters out of their homes and into the booths.

Rewriting a state constitution can be a vital matter to every citizen and the vote should be 100 per cent, but it won't be.

We are not endorsing any candidate for the constitutional convention delegate. All of the candidates are articulate and have many things that they want to put over.

None of them are from the Antioch area—unless you count Zion as being nearby.

Two are from Zion Glenn H. Reinier and Robert J. Klebe. Two are from Waukegan, Harold D. Wilson and Harry O. Kilbane. One is from Lake Bluff, Mary A. Pappas and one is from Lake Forest, John D. Wenum.

Four of the six will be nominated and then will vie for two posts in the November general election.

But before the product that they can come up with is brought back to the voters there has to be delegates.

Vote for whom you please for the posts.

BUT VOTE!

## Howlett Says . . .

(Continued from page one) institution suffered any financial distress getting off the ground, it was not fault of the Democrats. It was the fault of Republican leaders in the state legislature.

"When the Democratic administration in 1967 proposed a program to broaden the sales tax, the Republican legislators turned it down and wrote a program of their own which didn't work."

"They appropriated more money than the state could raise in revenue, and missed the target by more than \$300 million."

"We were able to climb out of it because we started the biennium with a substantial balance and because Gov. Shapiro instituted an austerity program which Gov. Ogilvie, to his credit, continued."

"The Democrats are the party of careful spending. We are for economy and efficiency in government, and the record of Democratic office holders in that respect will help us carry the state in 1970."

## Library Program Approved

X-Ray vision is one of Superman's superior characteristics. It seems that a patrolman of the Antioch Police Department also possesses this remarkable talent.

Swearing on oath in court, "to tell the truth, the whole truth, and nothing but the truth", he stated to the judge that he saw a vehicle (namely mine), run the stop sign on Broadway and Orchard in the village of Antioch, while he was standing one block away inside the police station on Main St. Upon verification from Chief Davis, the aforementioned stop sign cannot be seen from this vantage point, due to the structure of the Fire Dept. building of concrete block and brick. One must go several steps northwards on Main St., almost to Teresi's Chevrolet Showroom building before the stop sign appears in view.

Secretary of State and State Librarian Paul Powell today announced that official continuation of the Public Library Development program with necessary appropriations has been signed into law by Governor Ogilvie.

The bill appropriating \$4,745,104 had been overwhelmingly approved by both branches of the legislature where bipartisan sponsorship was headed up vigorously by Senator John G. Gilbert (R), Carbondale, and Representative Richard J. Hart (D), Benton.

Secretary Powell expressed gratification at the successful support of the program which was first authorized in 1965.

"This is evidence of the lively interest of our people in good library service," said Secretary Powell. "In the short span of four years the state has been blanketed by this cooperative program which lifts the level of efficiency down to the local level."

While libraries in some of our sister states are suffering financial difficulties or lack of concern in this important area, Illinois libraries are building solidly.

"The alert understanding among professionals, trustees and lay friends of libraries should be a matter of just pride to everyone in the state."

Appropriations to the 18 systems are on the basis of 40 cents per capita and \$5 per square mile if one county is served or \$15 if more than one county is involved. In accord with the new annual session procedure of the General Assembly all grants are on a yearly rather than the former biennial basis.

The Northern Illinois Library System, with headquarters at Rockford, of which Julius R. Chittwood is director and Richard P. Brown, president, serves a population of 589,529 in an area of 5,424 square miles. Its share of the grant for the fiscal year is \$317,774.60.

Counties, in whole or in part, included in the Northern Illinois System are: Boone, Carroll, Jo Daviess, Lake, Lee, McHenry, Ogle, Kane, Stephenson, Winnebago, Whiteside and DeKalb.

Cocktails and dinner will be by invitation only, it was announced.

The tentative date set for the dinner-dance is Saturday, Nov. 22, in the Antioch Country Club, formerly George Diamond's Country Club, Rte. 59 and Grass Lake Road.

A meeting will be held on Thursday, Sept. 11, at 7:15 p.m. in Lorenz's Smart Country House, to discuss and prepare arrangements for the first annual Thanksgiving Dinner-Dance to benefit St. Peter's Grade School of Antioch.

Judge Strouse said bonds are now reasonable and fairly fixed.

On the subject of trying to assist individuals who have been in trouble with the law, Strouse said we do not have, nor are we making sufficient expenditures for adequate rehabilitation.

## 25,700 Vets Take Flight Instructions

More than 25,700 veterans are currently taking flight training for a commercial pilot's license under provisions of the G.I. Bill.

John B. Naser, manager of the Veterans Administration's regional office in Chicago disclosed today.

Since flight training was approved by Congress in October of 1967, a total of 38,588 veterans have taken advantage of the course.

Provisions under the G.I. Bill require that a veteran must first possess a private pilot's license, or its equivalent, and must meet the medical requirements for a commercial license, Naser said.

An eligible veteran entered into an approved flight course will be paid an educational assistance allowance computed at the rate of 90 per cent of the established charges for tuition and fees which non-veterans enrolled in the same flight course are required to pay.

According to Naser, these allowances may be paid monthly by the VA upon receipt of a certificate from the veteran and the school as to the flight training received and the costs to the veteran during such month.

The eligible veteran will be charged one month's educational entitlement under the G.I. Bill for each \$130 which is paid to him as educational assistance allowance for a flight course.

Naser said that flight training as a part of an approved college degree program is also available to veterans.

## Safety Is Key To Good Life

"Safety starts with you!" That is the assumption of 4-H youths throughout the state. Regardless of where they live, who they are or what they do, they soon learn that safety pays big dividends.

These young citizens participate in the national 4-H Safety program now in its 25th year. Scores of adults work with them as volunteer leaders under the supervision of the Cooperative Extension Service.

For boys and girls to become safety conscious early in life is the aim of the 4-H Safety program, says a 4-H spokesman.

The program's sponsor, a pioneer promoter of safety, is General Motors. In addition to fostering personal interest in safety and the benefits therefrom, GM provides incentive awards to 4-H members, clubs, and to counties for outstanding safety efforts.

The program is beamed to boys and girls in the 9 to 19 age bracket. A checklist of hazards encountered in everyday activities becomes the focal point of many projects.

Right now during vacation time 4-H'ers, and their families as well, strive to stay safe while enjoying

\$353,899,099.15 during the 1968-69 school year. This is an increase of \$229,672,471.61, or 6.49 per cent. It is estimated that support for schools will be approximately 35 per cent of district revenue in 1969-70, an increase over the estimated 24 per cent for the 1968-69 school year.

Page said he hopes the general state aid for schools will reach 45 per cent in the near future. According to state figures state support of schools in 1963 was only 19 per cent. Since Superintendent Page has taken office the foundation level for schools has increased every year except in 1963 when Governor Otto Kerner vetoed a proposed increase of school aid approved by the General Assembly. The foundation level was raised to \$330 in 1965, to \$400 in 1967, and to \$520 in 1969.

## Social Notes

By Del Jahncke

The Ray Rathmann family of Oakwood Knolls are at home again after a pleasant two week vacation. Their first stop was Louisville, Kentucky, where they had a glimpse of Fort Knox (but received no "free samples"!); and the General Patton Museum. This Museum was of special interest to the menfolk with its war tanks, artillery, etc., most of World War II vintage.

Next on their agenda was Mammoth Cave, Ky., where they took one of the shorter sightseeing trips through this world famous Cave. This tour was in the area of stalagmites and stalactites, with the huge, sculptured green frozen stone Niagara Falls and many other beautiful, odd and fascinating rock formations.

A complete change of scene brought them to the Oak Ridge, Tenn., American Museum of Atomic Energy. This Museum is designed to give the public a better understanding of the atom and its peaceful usefulness, and promote interest in students studying for a career in nuclear science.

Lovely Rock City, perched atop Lookout Mountain near Chattanooga, Tenn., was the Rathmanns' next destination. This weird city of rocks with its fantastic formations, thrilling vistas, and delicately pretty wild flowers; was conceived and developed some 35 years ago by a Mr. and Mrs. Garnet Carter. Rather than destroying its many natural beauties, the Carters so artfully contrived added attractions, to combine the entire site into one harmonious place of beauty. Rustic bridges span deep crevices, wide stone walks and broad steps enable the people to safely explore this mountainous terrain. A glorious panorama of seven states was viewed on the summit.

Fairyland Caverns is an enchanting man-made addition to the natural wonders of Rock City. The caverns begin with a glittering, crystal entrance and continues with display after display of storybook scenes. Each scene, almost life-size, is illuminated in "black-light" which brings out colors not seen in ordinary light. All childhood favorites can be seen in Fairyland Caverns—Hansel and Gretel; Jack and the Beanstalk; Cinderella, etc. This astonishing realism and true artistry of each setting delights everyone, from six to sixty-six!

Now a week's relaxation on Kentucky Lake, located between Kentucky and Tennessee, at a nice resort. Kentucky Lake was formed by a gigantic dam across the mighty Tennessee River; with the nearby Barkley Lake, formed by a huge dam on the tumultuous Cumberland River; (part of the TVA Project). The two lakes are connected by a 1½ mile canal. The peninsula of land between the two large lakes has been created as a wooded recreation area, unique in both nature and history, and unlike anything in existence today. The Rathmanns enjoyed a day-long pontoon boat ride on the two lakes.

Taking the "long way home", they drove through much of the Great Smoky Mountains National Park. The blue haze that hovers almost constantly over these mountains appropriately names these "Smoky" Mountains. They were enthralled with the magnificent vistas; the verdant wooded hills; the cascading waterfalls; the mountain wild life and wild flowers.

Back to Antioch, with many memories to reminisce about during the long, cold winter months.

Sunday, Aug. 31, some forty members of St. Mark's Lutheran Church in Lindenhurst were guests at an open house, held in honor of Mr. and Mrs. Eric Larson and daughter, Nancy, of Phoenix, Ariz. The Larsons are former Deep Lake residents, and the Ray Rathmanns hosted this party at their home. The Larsons are god-parents of Susan Rathmann.

Mrs. William Franzen, Vernon Unit, Division Poppy Chairman; and Mrs. William Schultz, Marvin Unit, Division Rehabilitation Chairman. All division chairmen are appointed by the state president, as are also Department Committee Members.

Mrs. Charles Gill of Tinley Park, Department President, will conduct this meeting. A broad outline of all the year's programs will be scheduled at this first meeting of the new state officers and chairmen.

# When's the last time you got goose bumps when they played the Star Spangled Banner?

It's been a while, right?

Well, then you're like a lot of us.

It seems that many of us are too grown-up to get excited about things like the Star-Spangled Banner any more.

You could almost say that patriotism makes us feel embarrassed.

Besides, it's hard to really feel patriotic when you hear so much about how this country is falling apart.

But, of course, America still has a Bill of Rights.

And free elections.

An incredibly high standard of living.

And a free enterprise system that lets you hitch your wagon to any star you want.

And plenty of other things you can't find anywhere else in this world.

Know what? Looking at it that way, America deserves a lot more credit than it's been getting.

One of the best ways to give this country the support it deserves is to buy U. S. Savings Bonds.

They strengthen the country so that it's better prepared to solve its problems.

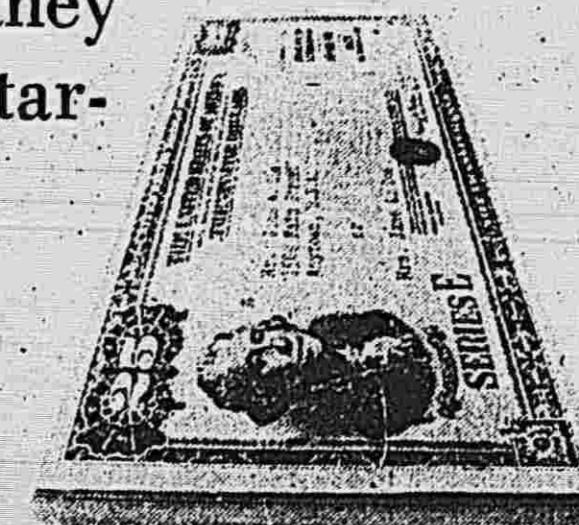

And they happen to be one of the best ways to provide for your own welfare.

The interest is exempt from state and local income taxes. And you don't have to pay Federal tax until you cash your Bonds.

Buy U. S. Savings Bonds through the Payroll Savings Plan where you work. Or at your bank.

It'll give you a good feeling.

And a perfect excuse for getting goose bumps the next time they play the Star-Spangled Banner.

If they're lost, stolen, or destroyed, we replace 'em.

LOOK OUT FOR . . .

Pedestrians who have their  
minds on shopping or business  
or what they're going to have for  
lunch—anything but traffic.

Kids going to or coming home  
from school or playing in the  
street. Expect them to dash  
right in front of you.

The person who appears to be  
perfectly normal and capable of  
taking care of himself crossing  
the street, but who, when more  
closely observed, turns out to be  
physically handicapped. He's de-  
pendent on the driver's eyes for  
his safety.

Senior citizens who may not be  
as alert and nimble as you are  
on foot. Their reactions and step  
are somewhat slower than normal.

The four-legged pedestrian,  
most likely a dog in residential  
areas, and a horse, cow or deer  
in the country. Slow down and  
be ready to stop when you spot  
an animal in or near the road.  
Tap the horn as a warning.

—Be prepared for anything,  
reminds the Lake County Safety  
Commission.

THE ANTIOCH NEWS

## Swim Club Holds 'Record Breaker'

On Saturday, August 23 the Antioch Swim Club held its first annual Record Breaker. The Record Breaker is an inter-squad meet where the swimmers are racing against the clock to beat records that were set either during the current season or in previous seasons. The caliber of the swimmers is improving each year as evidenced by the fact that during the current season, 22 of the 40 records were broken. There are only seven records still standing that were set prior to 1968. The record onslaught during 1969 was led by Bobby Dodd who had three, Mary Kay Vorhies with three and Tim Waite with three.

The individual record holding is almost a family affair, led by the Vorhies of Lake Villa with 15 and the Walpoles and the Dodds of Antioch with seven and six respectively. Of the 40 records, 28 are held by the three families.

Following are the individual records by age group of the team.

## Dog Show Judges Named

A panel of 25 judges will officiate at the 30th annual International Dog Show scheduled April 4 and 5, 1970 in the International Amphitheatre, Chicago.

The show will occupy a large area of the 13-acre building, the country's largest exhibition hall. Its vastness makes possible the staging of such popular events with the Dog Show as Indoor Field Trial exhibitions featuring gun dogs in land and water work, Whippet and Afghan Hound racing, and sled dog racing.

Harry Peters, Jr. of New York, N. Y., will pick the Best in Show winner at the 1970 International. He will select the winner from among the finalists of the six groups — the Sporting, Hound, Working, Terrier, Toy and Non-Sporting groups.

Those who will pick the Group winners that will appear in the finals before Peters are: Mrs. Connie Besold, of Milan, Ill., will judge the Sporting Group; and the top hound will be named by Peter Knope, of New York, N.Y. The winning Working dog of the show will be chosen by Alva Rosenberg, of Wilton, Conn., and William W. Brainard, Jr., of Marshall, Va., will judge the Terrier Group.

Tom Stevenson, Carmel Valley, Calif., will judge the Toy Group; and Percy Roberts, Noroton Heights, Conn., will judge the Non-Sporting Group.

George Garrett of Zion was the big winner in the hobby stock action winning both his heat and the feature. Bob Carroll of Antioch was treated for knee bruising.
